Science and Faith: An Evangelical Dialogue Harry Lee Poe, Jimmy H. Davis
In an effort to address the tension between the basic tenets of the Christian faith and the basic doctrines of current scientific theory, Poe and Davis present a non-threatening way for Christians to examine their presuppositions about their faith and their views on science. Five basic questions are cross-referenced with five basic but major Christian faith affirmations of the Gospel to produce a worldview that is inherently Christian but not threatened by the scientific advancements being made every day.
