Secularisation, Pentecostalism and Violence: Receptions, Rediscoveries and Rebuttals in the Sociology of Religion David Martin

In this book David Martin brings together a coherent summary of his many years of ground-breaking academic work on the sociology of religion. Covering key and contentious areas from the last half century such as secularisation, religion and violence and the global rise of Pentecostalism, it presents a critical recuperation of these themes, some of them first initiated by the author, and a review of their reception history. It then reviews that reception history in a way that discusses not only the subjects themselves, but also the academic practices that have surrounded them.

As such, this collection is vital reading for all academics with an interest in David Martin's work as well as those involved with the sociology of religion and the study of secularisation more generally.
