Aristotle and Theology of Living Immortals (SUNY Series in Ancient Greek Philosophy)

Richard Bodeus, Jan Garrett

Aristotle and Theology of Living Immortals (SUNY Series in Ancient Greek Philosophy) Richard Bodeus, Jan Garrett
Now available in English translation, this in-depth study argues that Aristotle's theology was more traditional that has been widely proposed and that Aristotle perceived the gods as living and benevolent immotals. The book includes a reconsideration of the prevailing view, the relationship between theology and science and myth and a discussion of the role of the divine in philosophy. Bodeues' arguments are supported by useful summaries and the book concludes with a comprehensive bibliography.
