Philip's Atlas of the World

Philip's Atlas of the World
Philip's Atlas of the World provides balanced coverage of the world at well-chosen scales, plus an information-packed Introduction to World Geography - ideal for home reference or school project use. Political maps for each continent show national boundaries, highlight the size of each country in relation to its neighbours and mark provincial centres and capital cities. Thematic maps, diagrams, charts, graphs and tables explain the fundamentals of human geography and compare nation with nation on key themes such as population, language, religion, politics and environment. The index uses local spellings and includes geographical features such as mountains, rivers, lakes and deserts, as well as towns and cities, provinces and countries.
