Evidence and Science that Confirms the Bible Gayleen Crawford
There is historical and scientific evidence for Noah's world-wide flood, Moses, the fall of Jericho, the day the sun stood still, Jonah in the whale and other Bible stories. In the last 50 years scientific and historical research has shown that the Bible is accurate and that evolution can't work. This book explores the evidence that shows the Bible is true and can be trusted. You will be astounded at what has been uncovered. A must-read for all those who want to strengthen their faith in the Bible and for those who are seeking the truth. Gayleen Crawford is a prayer warrior, Sunday School teacher and former librarian. It is her desire to see the integrity and authority of the Bible restored. In 2007, she made a scale model of Noah's Ark and uses it as a tool to share the historical and scientific evidence that shows the Bible is true. Gayleen and her husband Frank live in south western Ontario, Canada, and have two sons, Daniel and Joseph.
