Royal Institution of Chartered Surveyors

Vertical Aerial Photography and Derived Digital Imagery Royal Institution of Chartered Surveyors
In recent years there has been increasing demand for the development of a series of specifications suitable for worldwide use to assist all those connected with the requesting, purchase and production of surveys and mapping material. This client specification is the first in this series and is fully revised and updated from the third edition of "Specification for Vertical Aerial Photography". A user guide is included alongside the specification, providing information and guidance on each clause.
