Decoding the Universe: How the New Science of Information Is Explaining Everything in the Cosmos, from Our Brains to Black Holes Charles Seife
As Charles Seife reveals in this energetic new book, information theory, once the province of philosophers and linguists, has emerged as the crucial science of our time, shedding new light on the mysteries of physics, the nature of space and time and the creation and destruction of the universe itself.

With his gift for making cutting-edge science accessible and entertaining, Seife explains how theorists came to understand that information is not a construct of the mind but a fundamental element of the physical world, something that sits inside every living cell and surrounds every black hole in the cosmos. It exists, like energy, even if there is no life to observe it. Starting with the breaking of the Enigma code during World War II and building momentum with the computer revolution, information theory has taken its place at the forefront of theoretical physics as scientists begin to use it to reconcile the paradoxes of relativity and quantum mechanics that have puzzled theorists since Einstein. Lucid and exhilarating, *Decoding the Universe* probes the mind-boggling advances that are taking us to the brink of a new understanding of the universe.

From reader reviews:

Jack Alexandre:

Do you among people who can't read pleasurable if the sentence chained in the straightway, hold on guys this aren't like that. This Decoding the Universe: How the New Science of Information Is Explaining Everything in the Cosmos, from Our Brains to Black Holes book is readable simply by you who hate those straight word style. You will find the information here are arrange for enjoyable examining experience without leaving also decrease the knowledge that want to deliver to you. The writer involving Decoding the Universe: How the New Science of Information Is Explaining Everything in the Cosmos, from Our Brains to Black Holes content conveys thinking easily to understand by many people. The printed and e-book are not different in the written content but it just different such as it. So , do you nonetheless thinking Decoding the Universe: How the New Science of Information Is Explaining Everything in the Cosmos, from Our Brains to Black Holes is not loveable to be your top collection reading book?

John Malcolm:

You could spend your free time to study this book this guide. This Decoding the Universe: How the New Science of Information Is Explaining Everything in the Cosmos, from Our Brains to Black Holes is simple to bring you can read it in the playground, in the beach, train in addition to soon. If you did not get much space to bring often the printed book, you can buy often the e-book. It is make you quicker to read it. You can save the book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.

Philip Martin:

Many people spending their time frame by playing outside together with friends, fun activity having family or just watching TV 24 hours a day. You can have new activity to shell out your whole day by studying a book. Ugh, think reading a book really can hard because you have to accept the book everywhere? It okay you can have the e-book, delivering everywhere you want in your Smart phone. Like Decoding the Universe: How the New Science of Information Is Explaining Everything in the Cosmos, from Our Brains to Black Holes which is getting the e-book version. So , try out this book? Let's see.

Mary Scruggs:

You can find this Decoding the Universe: How the New Science of Information Is Explaining Everything in the Cosmos, from Our Brains to Black Holes by check out the bookstore or Mall. Just simply viewing or reviewing it can to be your solve difficulty if you get difficulties for your knowledge. Kinds of this publication are various. Not only by means of written or printed and also can you enjoy this book by simply e-book. In the modern era just like now, you just looking by your local mobile phone and searching what your problem. Right now, choose your personal ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still change. Let's try to choose suitable ways for

you.
