Rhinoplasty is one of the most challenging operations in aesthetic plastic surgery. Not only is it technically difficult as no two noses are the same, surgical decision making plays an absolutely critical part. Unpredictable post-operative healing, natural facial asymmetry, and high patient expectations lead to a high incidence of secondary (revision) operations. With contributions from a truly outstanding, international list of experts, this two-volume set covers operative principles and includes the personal techniques of nearly 50 experts. The books are liberally illustrated with color photos and artwork. Also included are the e-book version, as well as 13 hours of surgical video, presented in 120 tightly-edited clips and showcasing 30 full procedures.
