**Uroboros Saga Book 5 (Volume 5)** Arthur Walker
Brook uncovers video files revealing that Doctor Maurice Madmar was not the man everyone thought he was, at least not at first. Worse, he may be one in a long string of victims. Perfidy reaches disturbing conclusions about the transport carrying Taylor that crashed twenty years ago. While traveling to confirm his suspicions, the past comes rushing up around him. Kale plays a dangerous game with the Cabal, trying to prevent tragedy on Mars. In the process, he comes too close to the truth and it is innocent people that pay the price. The world continues to burn as the Cabal carries out a shadowy agenda, striking at everyone Vance Uroboros loves and has tried to protect. Meanwhile, among the stars, a quiet protector waits to be released from an old obligation. The Uroboros Saga is character driven science fiction, published three times per year. Each book continues the story with an array of colorful characters and environments. It is written to address and explore the idea of technology that extends and expands the modern notion of identity, and the sort of dystopia that such technology could create. The global fiscal apocalypse that occurs in the midst of that exploration is just there to be charming window dressing. Enjoy.
