Diabetes Case Studies: Real Problems, Practical Solutions
The "case study" approach is one of the most used and most effective formats to present medical information and is the foundation for developing evidence-based treatment protocols. Compiled and edited by one of the world's best known clinical endocrinologists, Boris Draznin, MD, PhD, ***Diabetes Case Studies*** offers more than 100 actual cases from leading diabetologists, outlining both typical and unusual diabetes cases. Each study will illustrate real life dilemmas with a discussion as to how the diagnostic and therapeutic approaches were selected and implemented, through a thorough, yet succinct, presentation of the problems, the diagnoses, treatment protocols, and results. Readers will have practical information to use when treating their diabetic patients.
