The Nativity: A Critical Examination

Jonathan M. S. Pearce

The Nativity: A Critical Examination Jonathan M. S. Pearce
The nativity of Jesus is an event that carries much cultural recognition. However, is it a narrative which commands much support in the academic world? Is it a story which holds much historical truth? Or were the two biblical accounts of the birth of Jesus an opportunity for the authors to impart a theological truth or otherwise?

These are the sort of questions that are often asked of the nativity accounts and questions which are answered in this concise and yet well-researched and informative book. Some twenty arguments are looked at and presented in a clear and detailed manner, building a cumulative case for the objection to the historical nature of the Gospel accounts. The author also questions what purpose these stories do serve if indeed they do carry little or no historical truth.

With reference to a wide array of contemporary and iconic works on the subject, Pearce has created a compendium of critical arguments against the historicity of a story which still remains a vital piece of our collective cultural and religious tapestry.

"For anyone beginning to doubt the reliability of the gospels as eyewitness accounts, Pearce's "The Nativity" will teach you everything you need to know to move past the limitations of biblical infallibility and explore the complicated process that went into the gospel narratives of Jesus Christ." - Derek Murphy, author of Jesus Potter Harry Christ

"excellent" - David Fitzgerald, author of Nailed
