FAX

Joao Ribas

FAX Joao Ribas
Though the technology for transmitting information long-distance dates from the nineteenth century, it was the fax machine, made commercially available in the 1970s, that turned facsimiles into a primary form of communication. Artists readily exploited the fax machine for its graphic and interactive possibilities, positing the medium as a precursor to the then-nascent field of new media art and within the legacy of mail art. *Fax* presents works by a multigenerational group of nearly 100 artists, architects, designers, scientists and filmmakers--Mel Bochner, Liam Gillick, Wade Guyton, Glenn Ligon, Jan De Cock, Cerith Wyn Evans, Morgan Fisher and Aurélien Froment, among others--that use the fax machine as a tool for thinking and drawing. Published to accompany an exhibition at New York's Drawing Center, *FAX* includes the drawings, texts, examples of early telecommunications art (with inevitable transmission errors), junk faxes and fax lore that were all transmitted via the gallery's fax line.
